

## Cuprins

|                                                                                                                                                                                                                 |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Impact behavior of a new type of sandwich material used for shock damping, proposed in motorcycle helmet manufacturing<br><b>STANCIU Cornel Răzvan</b> .....                                                    | 1   |
| Research regarding the possibility of replacing traditional moulding methods with 3d metal printing techniques using laser sintering<br><b>NEGREA Catalin-Stefan</b> .....                                      | 9   |
| Analysis of the behavior of the knee prosthesis made of different biocompatible materials<br><b>NEDELCU Vasilică Ionuț Bogdan</b> .....                                                                         | 17  |
| Determination of stress and strain state in an equal stress beam loaded in simple bending<br><b>DRĂGHICIU Cristian</b> .....                                                                                    | 25  |
| Behavioral study of pla 3d printed sandwich structures with different core configurations subjected to three points bending<br><b>BURTOIU Mircea-Gabriel</b> .....                                              | 33  |
| Tren de aterizare ranforsat prin intermediul materialelor compozite<br><b>VLASIE Ștefan, ICHIM Paula-Mălina, NICOLAU Ovidiu-Petru, IVAN Mădălin-Florentin, BARASCH Albert</b> .....                             | 41  |
| What can we do with some toothpicks?<br><b>BOBÎRSC Laura-Marielena, IORDACHE Constantin, SĂPUNARU Vlad-Andrei, CIUCU Ștefania, GORUNESCU Olivia-Gabriela, LUPU Valentin-Constantin, COSAC Diana-Ioana</b> ..... | 47  |
| The surveyor project optimizing FDM 3D printing parameters for aerospace<br><b>BORUGĂ Cezar-Victor, PANAIT Alexandra Ana Maria, ALEXANDRU Andrei Sebastian</b> .....                                            | 52  |
| Competitiveness of photovoltaic systems for acquiring energy independence<br><b>CSEKE Akos Gabriel</b> .....                                                                                                    | 60  |
| Computer aided design of electric motors in SolidWorks<br><b>MURZAC Ion</b> .....                                                                                                                               | 68  |
| Posture correction using hardware system<br><b>BUCA Andrei - Alexandru, MIREA Andreea</b> .....                                                                                                                 | 75  |
| Study on the control of the food preparation process - sous vide - with the help of the sonoff relay<br><b>GEORGESCU Luiza, FULGA Eduard Radu</b> .....                                                         | 85  |
| Modeling the Geneva Drive mechanism<br><b>BORCAN Maria-Alexandra, NEACSU Angela-Miruna, VLAD Mihaela-Marilena</b> .....                                                                                         | 91  |
| Kineto-dynamic modeling of the combine harvester cleaning unit mechanism<br><b>RADU Cristian, VLADUT Elena, PARASCHIV Elena, CIOCEANU Diana</b> .....                                                           | 97  |
| Aspecte privind construcția și caracteristicile roboților pompieri<br><b>MEHEDINTI Patricia Camelia, STAN Andreea Georgiana</b> .....                                                                           | 102 |
| Aspects regarding the construction and operation of surgical robots<br><b>BOTA Alexandru, TĂNASE Bianca – Cristiana</b> .....                                                                                   | 108 |
| Analiza neetanșeității unui robinet de trecere a apei reci prin aplicarea metodei DMAIC<br><b>STĂNESCU Ana-Maria</b> .....                                                                                      | 114 |

|                                                                                                                                                                          |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Self-assessment of an organisation's performance in the oil and gas industry<br><b>STANCIU Alexandra-Elena</b> .....                                                     | 119 |
| Autoevaluarea performanțelor unui organism de certificare<br><b>IOANA Elena Gabriela</b> .....                                                                           | 127 |
| Analysis of fitness bicycle product characteristics using quality planning tools<br><b>LUPESCU Ionela-Mihaela, RUDARU Elena-Loredana, SBURLAN Florentina-Elena</b> ..... | 136 |
| Carbon-carbon composite material<br><b>GAVRILĂ Bogdan, POPESCU Cristian, CRISTACHE Daniel</b> .....                                                                      | 142 |
| Biofuel cell<br><b>DUNĂREANU Vlad Nicolae, ILIE Denisa Cristina, NEGRUȚ Ionela</b> .....                                                                                 | 146 |
| Research on the design of a hydraulic operated handling robot<br><b>SCARLAT Andrei, DINCA Alexandru-Laurențiu</b> .....                                                  | 152 |
| Research on the design and construction of a palletizing robot<br><b>STOICA Raluca Georgiana, STOICA Radu Ionuț, OTELEA Răzvan Florin</b> .....                          | 157 |
| New methods and techniques of leadership and management<br><b>PANAIT Ancuta-Elena</b> .....                                                                              | 163 |
| Identification of the welding points in the after-sales department<br><b>GHEȚEA Ion Bogdan</b> .....                                                                     | 172 |
| Improving quality and specific points in case of implementation of new services to customers<br><b>DELEANU Bianca-Elena</b> .....                                        | 178 |
| Management of production processes<br><b>CRISTESCU Vlăduț-Andrei</b> .....                                                                                               | 186 |
| Analysis of secondary shaft gears from TLX gearbox following “highway” test on BIA/BIDC bench<br><b>BARBU Dragoș</b> .....                                               | 194 |
| Systèmes de mesure 3D<br><b>NISTOROAIA Constantin Adrian</b> .....                                                                                                       | 200 |
| Techniques de management dans les systemes integres de production<br><b>TĂNASIE Diana</b> .....                                                                          | 206 |
| Logistique des biens industriels en Roumanie<br><b>TUDORACHE-CĂLIN Andreea-Elena</b> .....                                                                               | 212 |
| Culture organisationnelle – une composante essentielle de l'excellence en affaires<br><b>AL MOKDAD Diana</b> .....                                                       | 220 |
| Systeme d'orientation automatique biaxial de panneaux photovoltaïques de petite capacite<br><b>PUIUL Mihaela Mădălina</b> .....                                          | 226 |
