

Content

Virtual tool for determining reactions and drawing effort diagrams COLEȘ Maria-Teodora and SPÂNU Paulina	1
Virtual instrument for simulating the deformation of a fixed bar at one end under the action of the forces ILIESCU Elena Georgiana and SPÂNU Paulina	5
Virtual instrument for determining the maximum deformation in a simply supported beam BUȘEGA Vlad George and SPÂNU Paulina	9
Virtual tool for calculating rivet joints CRÎNGUȘ Ciprian and SPÂNU Paulina	13
Prototyping of an experimental machine-type model BUZDUGAN Andrei, CHIRICU Rareș Dumitru and DUGĂEȘESCU Ileana	18
Research on the control of parts with a conical profile in parts in the automotive industry STAICU Constantin-Georgian and TEODORESCU-DRĂGHICESCU Florin	24
Modelling of an oscillating cam-slider mechanism SĂRBĂTOARE Eduard-Andrei and PARASCHIV Alexandru-Ionuț	30
Integrating a laser for laser engraving operation and finite element analysis TURTUREA Petre-Gabriel, SĂTEANU Claudiu-Constantin, MOROȘAN Teodor, GIGOI Ștefan-Alexandru and MINODA Shogo-Victor	34
Study on the mechatronic system with self-balance POPESCU Daniel-Mircea	38
Reconditioning of historic vehicles SCARLAT Cristian-Nicolae and ARSU Emanuel-Florin	46
Numerical and experimental study of an Al-PLA sandwich beam loaded in bending TĂLÎNGĂ Ana-Maria, COSAC Diana-Ioana	50
Structural and fabrication process optimization for a robot effector ANASTASIU Alexandru-Ioan	57
Considerations regarding the choice of the material and the printing parameters for efficient prototypes in the industry of plastics NĂSTASE Marian-Sebastian, COSTEA Mihai, JIGA Gheorghe-Gabriel	63
Linear buckling analysis of stiffened panels CIUDIN Sabina	69
Design, optimization and verification of the structural integrity of the piston of a system that has the functional role of a heat pump ANCUȚA Andrei-Alexandru	77
Determination of the stress and strain state in the mounting solution of parallel acting industrial robot COSTEA Mihai, NĂSTASE Marian-Sebastian, ANCUȚA Andrei-Alexandru	85
Finite element analysis of mechanical agricultural parts Achim Ionut-Alexandru	91
A comparative numerical study of dental implants MORARU Emanuel-Ioan	97

Research regarding the implementation of quality management principles in the student life STOIAN Ana-Maria, LUCA Beatrice-Elena, MARINESCU Victor-Marian	103
Management of nonconformities in the industrial field POPA Ionuț-Raul, STRUGARU Raluca Alexandra	109
Self-assessment of the integrated management system in an educational service provider organization CAZAN Mădălina Violeta	117
Self-evaluation of the integrated management system in a financial services providing organization HAIMANA Diana-Monica	125
Development of performance indicators in a company from the automobile industry BĂLAN Ștefan	131
Management system self-assessment of a distribution company of medical devices OLTEANU Larina-Georgiana	139
Monitoring the level of pollution in the Henri Coandă international airport area OPRIȘAN Emilia, TUDORACHE Alexandru	147
First aid at the workplace – need or obligation ȘERBAN Georgiana, MARCU Elena	153
The evaluation on the effectiveness of protective masks against respiratory infections BĂLĂNESCU Anca-Alexandra, LUGOJ Ema-Alexandra	161
Improving the housing structure CĂLUGĂRU Răzvan, POPESCU Valeriu	167
Theoretical model for estimating atmospheric pollution based on car traffic observation and monitoring station STOICA Mircea-Edwin, MĂNTEȘCU Yasmina-Andreea, DIACONU Diana-Elena	173
3D printing technology and building the 3D printer IOSIF Mihai and DUMITRU George-Eduard	179
Glider wing model made of composite polymeric material MORAR David Mihai, PASARE Theodora Maria, MOTEA Catalin Cristian	183
Three-dimensional astroid with variable roughness CRĂCIUN Mihai-Sebastian, DAJIU Ștefan-Cătălin	188
Theoretical and experimental considerations regarding the realization of a treatment furnace GRIGORE Andrei Alexandru, ACIOBĂNIȚEI Alexandru	192
